**RESEARCH STATEMENT:**

Hammersmith Bridge was closed to motorised vehicles in April 2019 (this includes Cars, buses & motorbikes). There has since been a lot of speculation about the future use of the bridge. This survey aims to identify how users were crossing the bridge before it was closed to motorised vehicles, how users are crossing it now, and whether users think that there are any benefits as a result of this closure. The survey also wants to understand how users think the bridge could be used in the future.

The information you provide will not be used to identify you personally, though anonymised data may be published within the scope of a news article on the future of the bridge. All analysis will be carried out in accordance with the guidelines as set out in the Data Protection Act 2018.
